## Summer in Nashville: What to Expect & How to Stay Comfortable

Nashville in late July and early August is hot, sunny, and humid, with temperatures often reaching the upper 80s and 90s. Afternoon thunderstorms can pop up with little warning, so it's best to come prepared. Here are a few tips to help you stay cool and comfortable during the conference:

- Stay hydrated throughout the day
- Pack a small umbrella or light rain jacket for occasional summer showers
- Wear sunscreen if you'll be spending time outdoors
- Choose light, breathable clothing for daytime activities
- Bring a portable fan or cooling towel to help beat the heat
- Dress in layers—meeting rooms and convention spaces can be heavily air-conditioned
- Wear comfortable shoes—you may be walking between conference events and exploring downtown Nashville
- Enjoy Music City and make the most of your conference experience!
